

On Wednesday, 10th July, the Malta Intelligent Energy Management Agency ([MIEMA](#)) will be launching a new EU-funded MED Capitalization project called MER – Governance and Marketing for Industrial Areas. The event, consisting of a

seminar

and

press conference

, will start at 9.30 a.m. at the Corinthia Marina Hotel in St Julians.

The conference will be addressed by the Hon. Dr **Konrad Mizzi**, Minister for Energy and the Conservation of Water, Dr

Mari

no Cavallo

, representing the Province of Bologna (MER Project Lead Partner), Prof.

Alfredo Valentino

of the LUISS University of Rome, Dr

Euridice Cristo

of Algarve University, Dr

Stefano Mugnoz

, from U-space and Roma 3 University, as well as representatives of the project partners and experts.

This Territorial Cooperation project aims at establishing a “network of networks” where to share experience and identify good practices which may be replicated to produce a European action plan, suitable to influence new policies towards a more sustainable development. MIEMA will also be hosting the kick-off meeting of the project, being held on Tuesday, 9th July.

The MER project is led by the [Province of Bologna](#) and includes other partners from Italy ([ENEA – Italian National Agency for New Technologies](#)

, Energy and Sustainable Economic Development, and Informest – Service and Documentation Centre for International Economic Cooperation), Spain (

[FVMP – Valencian Federation of Municipalities and Provinces](#)

, and CEEI – Valencia Business and Innovation Centre), France (Chamber of Commerce and Industry of Nice Cote d’Azur), Greece (

[Anatoliki S.A.](#)
) , Portugal ([CRIA – Algarve University](#)
) , Slovenia ([Urban Planning Institute](#)
) and Cyprus ([CEA – Energy Agency](#)
).
